

ACTION PLAN FOR WIS2 OPERATIONALISATION

By

UGANDA

**Department of Meteorological Services
Ministry of Water and Environment**

Question1

Piloting

Adoption of Wis2 and operationalization for data sharing and exchange

Priority datasets

Surface Observations (hourly) data

Forecast data

Data Workflows

**Collection, Transmission, Storing,
Processing/QC, Sharing and Decision
Making and Utilisation (*Refer to Schematic
diagram shared*)**

2. What changed this week

- ❖ Improved understanding of wis2box in publishing data**
- ❖ Interface and configuration of wis2box**
- ❖ Standardised data formats**

3. Way forward

- ❖Aligning metadata inline with wis2 requirements**
- ❖Capacity strengthening of staff**
- ❖Wis2 box installation and declaration**
- ❖Select and prepare workstations**
- ❖Prepare and link data stations**
- ❖Integration of Wis2 box with CLIMSOFT**

A scenic mountain landscape with a rainbow arching over a valley. A car is visible on a winding road in the lower left. The sky is a pale blue, and the mountains are covered in green vegetation.

THANK YOU
